## ABOUT ME

I'm currently pursuing my B.Tech in Computer Science and Engineering (3rd year). I'm passionate about programming, developing real-world projects, and learning modern technologies. I love simplifying complex problems and turning ideas into well-structured, functional solutions.

## EDUCATION

**B.Tech in Computer Science and Engineering (2023-present)**

**BMS Institute of Technology & Management**

## TECH STACK ACTIVITIES

### Course Completion

Completed Data Science course by Code With Harry, strengthening core programming skills with hands-on experience.

### Participation

Participated in Hackaphasia at BMSCE, collaborative on innovative projects and enhancing problem-solving skills.

### Participation

Took part in HackSphere at BMSIT, gaining hands-on experience in creative project development and rapid prototyping.

## SKILLS

### Coding Languages

- Python(Intermediate)
- JAVA(Basic)

### Databases

- PostgreSQL

### Frameworks

- Django Rest Framework
- React Framework

### Web Development

#### Frontend

- HTML
- CSS
- JavaScript

#### Backend

- Python/Django

### AI/ML/DS Libraries

#### Data Science

- Scikit-learn(Basic)

#### Machine Learning

- Large Language Model(LLMs)

## PROJECTS

### Sentiment Analyzer

Created a Sentiment Analyzer to explore how machines understand emotions in text. It gave me hands-on experience with NLP and real-world data

### Book Recommendation System

Developed a content-based book recommendation system that suggests books to users based on title, author, genre, and description using Django and PostgreSQL.
